

IEN Construction Plans for 3208

The IEN today announced their plans to bolster Home Worlds defence by building more destroyers and increasing the number of pacifier squadrons.

Summary of Planned IEN construction for 3208

- UoX have already agreed to provide the yards for the construction of two SABl that have just started construction.
- Tokyo Yards will complete 2 SCI in early 3208 and will then begin construction of 2 HBB to be completed in mid to late 3209.
- Solent Yards will complete the 2 SCI at the end of T68 and will commence the construction of two SABl to be completed at the end of 3209.
- Diego Yards will complete the two SCI in early 3208 and will then build three new DD and two new PAC squadrons during 3208, completing in early 3209.
- Civil Yards A will complete the construction of the two SCI at the start of T69 and will begin construction work on 2 SABl class, to be completed at the end of 3209
- Civil Yards B has been Returned to Industry with an emergency recontracting clause.
- TSY 1 will complete construction of the two SCI (staggered in early 3208) and then begin work of three DD, and SSI and and extra PAC squadron during 3208/3209
- TSY 2 will complete construction of the two SCI (staggered in early 3208) and then begin work of three DD, and SSI and and extra PAC squadron during 3208/3209
- TSY 3 will construct 3 DD and an extra PAC squadron.
- TSY 4 will construct 3 DD and an extra PAC squadron.
- TSY 5 will construct 3 DD and an extra PAC squadron.
- TSY 6 will construct 3 DD and an extra PAC squadron.
