

Perceived wrongs (and actual ones too)

**Suggestions for modifications (one space unless otherwise noted):**

- multiple deaths in a single incident (2 spaces)
- single murder/serious injury (per incident)
- dishonouring one of the tribal women
- theft or destruction of property (extreme cases could be 2 squares)
- breaking their side of a bargain or agreement
- siding with the enemy

**Mitigations against this (move back in the other direction)**

- paying the correct level of compensation
- handing over the culprit for summary justice
- agreeing to marry a 'dishonoured' woman (with generous bridewealth if responsible)
- acting against a common enemy
- providing assistance with farming or other common tasks
- providing a tangible improvement to quality of life for the tribe generally
